

Tall Trees Tour

Our signature Tall Trees Tour takes you into the world's highest ranked world heritage area, the Tasmania Wilderness World Heritage Area.

Taking forest roads deep into the hidden Styx Forest we discover the world's tallest hard wood trees.

A journey that provides changing views as we climb high up into the mountains and descend down to the Styx river.

The seven world heritage criteria we seek out are:

- ✓ an outstanding example of a landscape which illustrates significant stage in human history
- ✓ exceptional natural beauty and aesthetic importance
- ✓ outstanding example of earth's history
- ✓ outstanding example of biological processes and communities of plants and animals
- ✓ significant natural habitats of biological diversity
- ✓ directly associated with artistic works of outstanding universal significance

The tour is led by David Hearle educated as a botanist with a huge passion and knowledge about Tasmania.

The tour departs from Hawthorn Lodge in Bushy Park at 9 returning at 12.30.

A transfer can be arranged from Hobart. Weather is unpredictable, rain is possible so do bring warm clothing and rain gear. Short walking on forest tracks is needed so wear suitable foot wear.

Number in party	\$ Per Person	\$ Total
One person	230	230
Two persons	130	260
Three persons	95	285
Four persons	90	360

A transfer can be arranged from Hobart. Free pick up in New Norfolk.
